

Toxin Treatment Post Care Instructions

Post Treatment Instructions:

- Do not rub or massage the treated area for the remainder of the day.
- Please refrain from applying make-up and/or skincare for the next 24 hours if possible. This includes retinols, AHA's, scrubs, masks, etc. and do not use your Clarisonic, or other facial cleansing device, if you have one.
- Do not exercise for at least 24-48 hours after treatment.
- Avoid laying down for at least 4 hours after treatment.
- No massages or waxing the treated area for at least 1 week.

Protect your investment and reapply your sunscreen when outdoors.

What to Expect:

- Headaches are common. Botox is even used to treat headaches. However, if you have a headache we recommend you avoid aspirin or aspirin containing products.
- Toxins take about 3 days to start seeing results, 2 weeks to see full results.
- Initially, the physician may want to see the patient 2 weeks for a brief "touch-up" and checkup of the procedure.

FOLLOW-UP: To achieve the best results, complete the full treatment schedule at the intervals recommended by your technician.

If you have any questions or concerns after the procedure, call us at 833-998-5893
